Hi! my name is Lisa Buzzard, I'm a 25 year old physiotherapist from England. I work in a large acute hospital in Birmingham, and after 4 years I decided to take a few months off work to find a good foundation to volunteer at, and try to help! And I definitely found it!!

Yayasan so rehab Bali is a great foundation, Marieke, Marjanne and all the team - I think you are doing a wonderful thing here in Lovina, and I'm glad I could be a part of it!

I've loved every minute of my stay in Bali, and have really enjoyed working with you all! Thank you for making me feel so welcome. I have lots of fond memories to take home with me, and will tell everyone at home about the excellent work you do with the children.
